You may have trouble paying your bills for different reasons. Please contact us so we can discuss your individual situation.

5. Payment Options

What we will do

There are different payment options available to hardship customers, including: •
payment plans

- Centrepay.

When you are in our hardship program, we will offer you flexible payment options to suit your individual situation.

To make your payment plan, we will consider:

- how much you can pay
- how much you owe
- how much energy we expect you will use in the next 12 months.

This will help us figure out a payment plan that is right for you.

We will offer a payment plan to suit your situation. This will include payments to cover:

- what you owe
- an amount to cover your energy use.

Once we agree to a payment plan, we will send you information including:

- who you can contact for more help
- how long the payment plan will go for
- the amount you will pay each time
- how many payments you need to make
- when you need to make your payments (this is also called the frequency of the payments)
- how we worked out your payments.

You can choose to use Centrepay, if you are eligible.

Centrepay is a free service you can use to help pay your bills. Centrepay can automatically take an amount of money from your Centrelink payments to go toward energy bills and expenses.

We will see if another energy plan may be better for you. If you agree, we can transfer you to a better energy plan for free.

Depending on the rules in our hardship policy, we may be able to remove some debt, fees or charges you owe.

If you miss a payment, we will contact you to see if you need help. We will contact you by SMS, phone and/or letter on at least two occasions in order to allow you to respond. These contacts will be -

- two days after the payment due date
- Seven days after first contact attempt

What you must do

Tell us if your situation changes and you can no longer make the payments in your plan. We can then review your payment arrangements.

Tell us if your contact details change.

We may stop helping you if you:

- stop making payments under your plan
- do not tell us when your contact details change.

If you have had two payment plans cancelled in the last 12 months because you did not follow your plan:

- we do not have to offer you another plan
- we might disconnect your energy.

6. Other supports to help you pay your energy bill

Depending on the state or territory you live in, there are other supports to help you pay your energy bills.

What we will do

We will tell you about other ways you can get help to pay your energy bill, such as:

- government relief schemes
- energy rebates
- concession programs
- financial counselling services.

What we need you to do

If you find out you are eligible for these programs, let us know as soon as possible so we can help you.

7. Our programs and services

As a hardship customer, you can access a range of programs and services to help you:

- advice or referrals to other support agencies who can provide a range of additional family services to help support household costs including possible faulty appliance replacements (No Interest Loan programs (NILS))
- fair and reasonable payment plans at fair and reasonable instalment intervals; and
- where high consumption is evident, advice on energy saving tips and how to obtain energy audits.

What we will do:

We will consider your individual situation to find the right programs (e.g. concession programs) or services that meet your needs

Early response to hardship indicators.

Our customer hardship team specialists are trained to identify customers who are vulnerable or may be about to experience hardship. This will be carried out whenever a customer:

- makes contact for payment arrangements
- makes a direct request for assistance, or
- responds to our contact regarding a late or missed payment.

Additionally, staff will review your payment history including late payments, requests for payment extensions, broken payment plans or if customers are receiving government grants and/or concessions.

All bills, reminder notices and disconnection or restriction warnings contain information advising customers to let us know if they are experiencing difficulties and that options are available to assist them with payments.

This includes clear information about key dates and any next steps, such as dates by which you need to make a payment or contact us.

Remember, it is critical that you keep us informed if your circumstances change, or you think you might have difficulties making your agreed payments.

Steps when entering our hardship program

When you enter the hardship program you can expect to go through the following steps, which are designed to help you navigate the program and get back on track with your energy costs.

- Assessment – first we will assess whether you are eligible for assistance under the hardship program.
- Assistance - In this step we will ask you questions regarding what you can afford to pay and whether you are entitled to any concessions that may help reduce the costs immediately. This information helps us to determine what assistance may be best suited in your circumstances. We will also provide you with a range of information upfront including what we expect of you and what you can expect of us and when you can expect to receive information.
- Payment plans – in this step we will work with you to develop an affordable payment plan.
- Monitoring – we will monitor payments and usage to gauge whether they are likely to get you back on track with your energy payments. We will contact you if we feel that we need to reassess or if there are other forms of assistance available that will help.
- Energy efficiency advice and energy audits – throughout the process we will try to understand your energy usage and consider different ways in which we may help you reduce your energy costs. Please note that this is an option to assist you and that entry into the Hardship program is not dependent on you agreeing to have an energy audit.

As part of our approach to Hardship we will continue to work with our customers and monitor energy consumption during their participation in a Hardship program. Our dedicated support staff we review each customer enrolled in a Hardship program every three months to ensure that:

- the customer is able to meet its obligations under the Hardship program
- the Hardship program is meeting the needs and expectations of the customer
- the tariff applied is appropriate for the circumstances
- any changes to the customers circumstances
